UFA PMO Project Governance

The decision management structure provides cross-team alignment to effectively address and escalate decisions, while project management processes and resources enable a strong project governance and also supports an inclusive model for program execution.

Decision Resolution and Escalation

Exec. Committee

Executive Committee serve as final decision makers on strategic project decisions, scope, and guiding principles

Steering Committee

Steering Committee reviews input from Advisory Council, confirms tactical decisions, advises on strategic decisions to Executive Sponsors

Advisory Council

Advisory Council provides recommendations to the Steering Committee and contributes input on future state requirements

Core Team and Project Teams

Core and Project Teams prepare and present analysis, data, requirements and options for consideration to inform recommendations and decisions
